Frequency and distribution of ratings for the Friends and Family Test question

How likely are you to recommend our GP practice to friends and family if they needed similar care or treatment?

Table 1

| Criteria category for scoring | Response scale | Number of responses | Percentage of responses* |
|----------------------------------|-----------------------------|---------------------|--------------------------|
| Promoters | Extremely likely | 24 | 48% |
| Passive | Likely | 13 | 26% |
| Detractors | Neither likely nor unlikely | 3 | 6% |
| | Unlikely | 5 | 10% |
| | Extremely unlikely | 5 | 10% |
| | Don't know | 0 | 0% |
| Total responses to this question | | 50 | 100% |

* May not add up to 100% due to rounding

| | |
|---|----|
| Number of patients who left Q1 blank (but provided other feedback on the questionnaire) | 1 |
| Total number of patients providing feedback | 51 |

Graph 1

74% of patients who responded to the survey would be either extremely likely or likely to recommend your practice to friends and family if they needed similar care or treatment.

The sum of the 'Extremely likely' and 'Likely' percentage of responses in Table 1 may not equal the percentage in the grey box above due to rounding.

Of those 50 patients who answered the Friends and Family Test question, 49 (98%), filled out a paper questionnaire and 1 (2%), completed a questionnaire online.

Cumulative and previous survey information

Additional information on the Friends and Family Test

The Friends and Family Test (FFT) is a feedback tool that supports the fundamental principle that people who use NHS services should have the opportunity to provide feedback on their experience that can be used to improve services. It is not a traditional survey. It is a continuous feedback loop between patients and practices.

Practices can use the feedback gathered through the FFT to celebrate successes and to support staff to make improvements where the experience of service does not live up to expectations. FFT results are also one useful source of information which can help to inform choice for patients and the public.

More information and guidance about the use of the FFT in the NHS can be found at <http://offlinehbpl.hbpl.co.uk/NewsAttachments/PGH/FFT.pdf> and <http://www.england.nhs.uk/wp-content/uploads/2014/07/fft-imp-guid-14.pdf>.

Example

You can help this general practice improve its service

- This practice would welcome your honest feedback
- All the information provided by patients is put together in a report for the practice. Your answers will not be identifiable. Any comments you make will be included in their entirety but all attempts will be made to remove information that could identify you.
- Once completed, please return this survey to reception in the envelope provided

Please mark the box like this ☒ with a blue or black ball-point pen. If you change your mind just cross out your old response and make your new choice.

We would like you to think about your recent experience of our service
