

Your Health.....

The NHS Mansfield and Ashfield Clinical Commissioning Group has been established to improve the health and well-being of the 185,000 population within the constituencies of Mansfield and Ashfield.

It is a collective of the GP (family doctor) practices across the two constituencies and is responsible for both planning and paying for healthcare services for people locally. It has an annual budget of £235 million that is used to pay for health services for the patient population.

To ensure NHS Mansfield and Ashfield CCG delivers effective and meaningful engagement with patients, carers and the public, a formal structure has been developed, built around practice-based Patient Participation Groups and various community health interest groups, feeding into a Citizens Reference Panel that will:

- ❖ Ensure inclusion of patients, public, communities of interest and geography
- ❖ Be a mechanism for gaining a broad range of views
- ❖ Be a means of hearing the views of individual patients and the voice of each practice population

The Citizens Reference Panel includes people from a diverse range of backgrounds, representing patient groups, vulnerable adults, people with a disability, young people, diabetic patients and people with mental health problems.

The Citizens Reference Panel will:

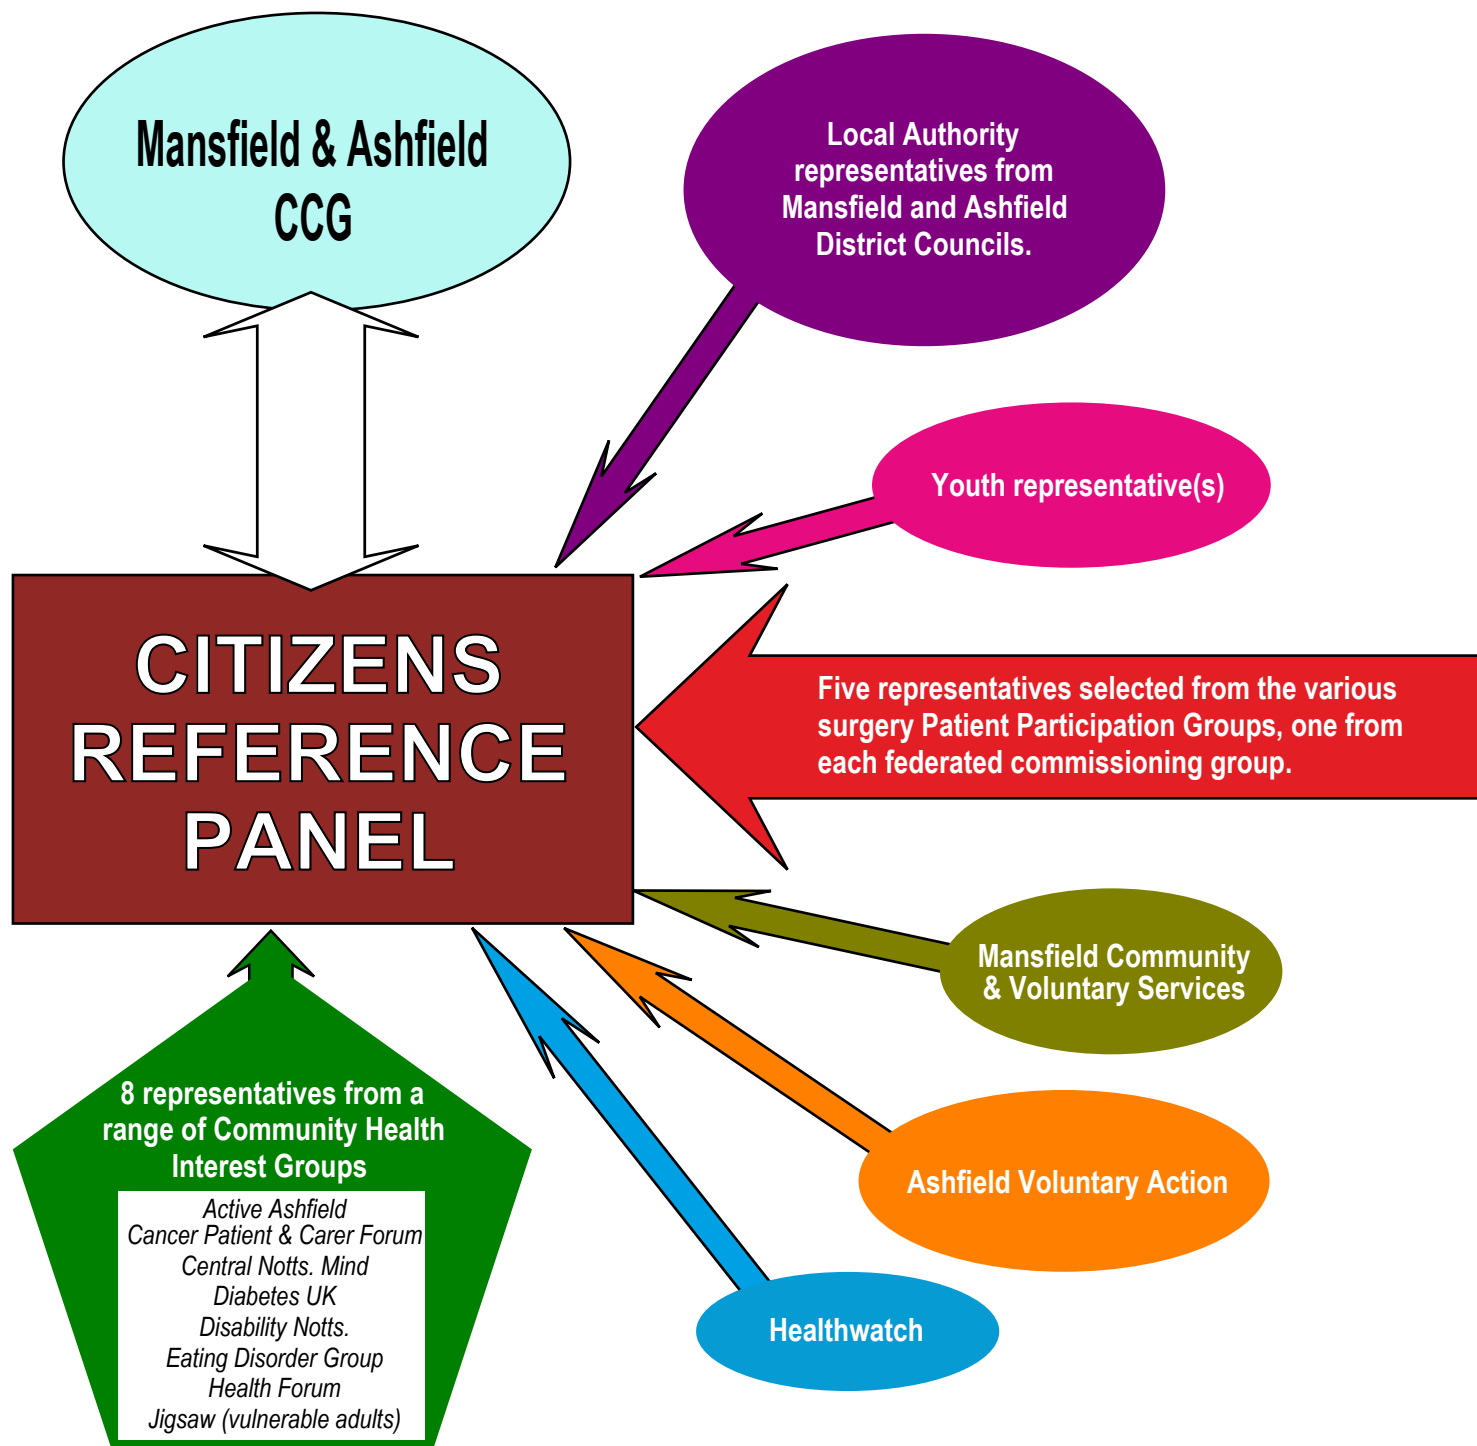

Mansfield and Ashfield
Clinical Commissioning Group
