Sample patient questionnaire

Frequency and distribution of ratings for the Friends and Family Test question

How likely are you to recommend our GP practice to friends and family if they needed similar care or treatment?

Table 1

Criteria category for scoring	Response scale	Number of responses	Percentage of responses*
Promoters	Extremely likely	21	43%
Passive	Likely	23	47%
Detractors	Neither likely nor unlikely	4	8%
	Unlikely	1	2%
	Extremely unlikely	0	0%
	Don't know	0	0%
Total responses to this question		49	100%

* May not add up to 100% due to rounding

Graph 1

90% of patients who responded to the survey would be either extremely likely or likely to recommend your practice to friends and family if they needed similar care or treatment.

The sum of the 'Extremely likely' and 'Likely' percentage of responses in Table 1 may not equal the percentage in the grey box above due to rounding.

Of those 49 patients who answered the Friends and Family Test question, 46 (94%), filled out a paper questionnaire and 3 (6%), completed a questionnaire online.

Please tell us why you answered as you did in question 1:

- Although very busy they always make time for you, doctors, good, staff, good.
- I have had a good experience at this practice. Any time I have wanted to see the doctor, I have always been able to.
- Never had any issues here. Usually fairly easy at making appointments. Though it is very difficult to see a nurse early in the mornings.
- Friendly and reliable.
- I have be in here for a long time and my friend don't live long from here.
- Is OK.
- Because I like everything on Sandy Lane.
- Very friendly surgery.
- Appointments difficult to get.
- Because recommend this GP practice they would have to live in the area.
- Excellent service with my children.
- Appointments can be a nightmare most times but other than this it's OK.
- Excellent reception and admin staff. One of the doctors very caring and helpful, another very helpful and another very professional.

Additional information on the Friends and Family Test

The Friends and Family Test (FFT) is a feedback tool that supports the fundamental principle that people who use NHS services should have the opportunity to provide feedback on their experience that can be used to improve services. It is not a traditional survey. It is a continuous feedback loop between patients and practices.

Practices can use the feedback gathered through the FFT to celebrate successes and to support staff to make improvements where the experience of service does not live up to expectations. FFT results are also one useful source of information which can help to inform choice for patients and the public.

More information and guidance about the use of the FFT in the NHS can be found at <http://offlinehbpl.hbpl.co.uk/NewsAttachments/PGH/FFT.pdf> and <http://www.england.nhs.uk/wp-content/uploads/2014/07/fft-imp-guid-14.pdf>.
