## Frequency and distribution of ratings for the Friends and Family Test question

**How likely are you to recommend our GP practice to friends and family if they needed similar care or treatment?**

Table 1

Criteria category for scoring	Response scale	Number of responses	Percentage of responses*
Promoters	Extremely likely	24	48%
Passive	Likely	20	40%
Detractors	Neither likely nor unlikely	2	4%
	Unlikely	0	0%
	Extremely unlikely	4	8%
	Don't know	0	0%
Total responses to this question		50	100%

\* May not add up to 100% due to rounding

Number of patients who left Q1 blank (but provided other feedback on the questionnaire)	1
Total number of patients providing feedback	51

Graph 1

**88% of patients who responded to the survey would be either extremely likely or likely to recommend your practice to friends and family if they needed similar care or treatment.**

The sum of the 'Extremely likely' and 'Likely' percentage of responses in Table 1 may not equal the percentage in the grey box above due to rounding.

**Of those 50 patients who answered the Friends and Family Test question, 49 (98%), filled out a paper questionnaire and 1 (2%), completed a questionnaire online.**

## Patient comments

The following comments are from patients who indicated that they were happy for these to be made public.

All comments are included in their entirety but all attempts have been made to remove details which could identify specific patients or practitioners.

### Please tell us why you answered as you did in question 1:

- Very good people.
- Quick and easy.
- Because although the surgery has some good aspects, there is also some bad, i.e. waiting times, sometimes you don't feel heard.
- All the staff are friendly, helpful and do what they can for you. And all the doctors listen and do their best for you.
- I always get the I need when I need it.
- They're not bad. Doctors and receptionists.
- Very good doctors.
- Waiting time.
- Staff are always pleasant. Doctors are knowledgeable and respectful.
- I have always been happy with treatment at Sandy Lane by the staff and doctors.
- Quickly seen to and high standard of care.
- It's just good.
- They're not bad doctors and receptionists.

Please tell us why you answered as you did in question 1:

- Very good.
- Good reception. Good staff. Every respect for doctors and nurses.
- Always been good to me.
- Good service.
- Because I am very satisfied with the service.
- Every time I call to see a GP I get to see one that day.
- Waiting time.
- The GPs that I have seen have always been friendly and caring towards me.
- Because it's a good doctors.
- Highly satisfied.
- No problem.
- Pleasant personnel. Always willing to please. Confidential.
- Because they are very nice.
- I've been with the surgery many years. I wouldn't change. I understand the pressures on the surgery and they do their best with a greater recruit and fewer resources.

### Additional information on the Friends and Family Test

The Friends and Family Test (FFT) is a feedback tool that supports the fundamental principle that people who use NHS services should have the opportunity to provide feedback on their experience that can be used to improve services. It is not a traditional survey. It is a continuous feedback loop between patients and practices.

Practices can use the feedback gathered through the FFT to celebrate successes and to support staff to make improvements where the experience of service does not live up to expectations. FFT results are also one useful source of information which can help to inform choice for patients and the public.

More information and guidance about the use of the FFT in the NHS can be found at <http://offlinehbpl.hbpl.co.uk/NewsAttachments/PGH/FFT.pdf> and <http://www.england.nhs.uk/wp-content/uploads/2014/07/fft-imp-guid-14.pdf>.
